

Software that understands the satellite industry!

Who we are:

Amphinicy Technologies is a leading provider of complex software solutions and all-round software support for the satellite and space industry.

Our state-of-the-art products, built upon 20+ years of experience and innovation:

1+Gb/s throughput, flexible,
pure-software satellite modem for
Earth Observation.

BLINK.AMPHINICY.COM

Robust, highly-scalable Monitor and
Control designed specifically for the
ground segment management.

5

Five important things about us:

- Unique company with excellence in software for satellite and space domain
- Long-lasting collaboration with major industry stakeholders
- Focused expertise ground segment (SatCom, EO, Humanitarian solutions)
- Innovative solutions in ground segment virtualization
- Following high security IT and Space standards

Experience provider of all-round software-engineering services:

Following strict space standards (ECSS): System definition > Implementation > Integration > Testing (AIV) > Operations

Monitor & Control

Passive Satellite Ranging

RF Equipment Integration

Mission Operation Center

Ground Simulators

VSAT Certification

NMS Systems

X-Pol Management

Beam Roaming

Aircraft Tracking

Mobility Management

EO Telemetry Processing

In-Orbit Testing

Independent Validation and Verification

GIS Visualisation

OSS Consolidations

Humanitarian Projects

Secure Communications

AIV Support

Virtualized Ground Segment

Our focus areas:

- **Monitor and Control** / Network Management Systems for the ground segment
- **Earth observation** real-time, high-throughput data reception and analysis
- **Secure SatCom** solutions
- **Virtualizing** Ground Segment
- **Humanitarian** applications: disaster recovery, eLearning, eMedicine

Quality

Amphinicy Technologies pays special care to deliver solutions of absolute quality. We use systems for automatic and continuous quality monitoring, and our customers can verify the shape of their development at any time.
